A B O U T U S

Established in 2017, A&G Cleaning Professional Services is a **High-End** Cleaning Company, created with a dream to improve work-life balance by freeing up more time and efficiently using our gifts and talents.

We identified a gap in the Cleaning Industry and decided to fulfill it, we were determined to transform the common misconception about Cleaning being a low status job into an **admirable** career niche.

At A&G Cleaning, we treat our customers' homes with the highest **respect**, all of our crews are trained to always be wearing their uniform so you can easily identify them; we don't play loud music or speak foreign languages in front of you.

We recognize that we are guests in your space. **Trust** is key to us, and we strive to show our **excellence** and **attention to detail** with every job.

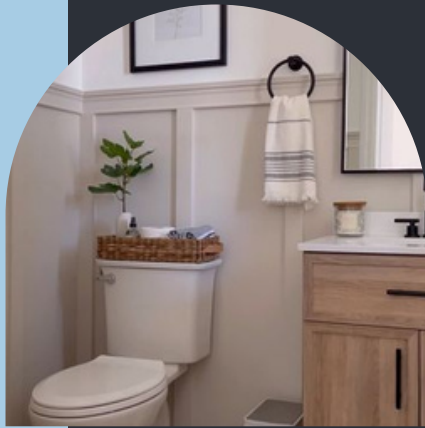

We believe in the power of those seemingly minor details to make a difference in **encouraging** families to seek professional cleaning services and enjoy the many benefits of a clean home such as promoting **mental health**, avoiding allergies, having more time, relieving stress, improving sleep quality, etc.

One of our founders is a visually-oriented individual who has strongly shared the significance of not only keeping things tidy but also considering the **aesthetics** of a space, as it adds to the overall ambiance.

Our aspirations have only grown over time. We are focused on supporting San Diegans to find **peace of mind** at home and, like us, regain time to engage in activities they enjoy, instead of worrying about their house maintenance. As well, we want to be a reliable **Partner** for Realtors, Contractors and Residential Developers around our County, and last but not least, Our ultimate goal is to become a **Best Place to Work**, with ample opportunities for career advancement, high paid jobs and great work environment.

Thank You for your support!

1 **We Reserve The Right To Refuse Service To Properties With Pests**

To prevent cross-contamination, A&G Cleaning has established a policy of declining service to properties with any type of pest infestation. In the event that a client neglects to notify us of the presence of such pests (alive or dead), a fee will be incurred, and our team will be unable to proceed with the cleaning service.

2 **Property Must Have Water Running**

Water access is imperative for cleaning bathrooms, sinks, floors, and other related activities. It is recommended that A&G Crews be provided with easy access to water to facilitate their work.
